### **COMPANY PROFILE AND GROUP STRUCTURE**

Shakarganj Limited was incorporated in Pakistan in 1967 as a Public Limited Company and is listed on the Pakistan Stock Exchange. Shakarganj is a leading manufacturer of food products, biofuel, as well as textiles. We transform renewable crops such as sugarcane and cotton into value added products including refined sugar, biofuel and textiles etc. Our registered office is in Lahore with regional office in Faisalabad.

Shakarganj Limited, through its strategic shareholding in Shakarganj Food Products Limited, is also active in production of dairy and fruit products.

#### Sugar Business:

We have two manufacturing facilities, which are both located in District Jhang. We produce different types of sugar comprising pharmaceutical, beverage and commercial grades sugar as well as soft brown sugar, castor and icing sugar, sugar cubes, sachets and retail packs. Our combined crushing capacity is of 16,000 Tons of Cane per Day (TCD) which is extendable to 20,000 TCD.

#### **Biofuel Business:**

We have six distillation plants of which three are located at our Jhang facility and the remaining three are located at our Bhone facility where various grades of biofuel are produced. Our products include Rectified Ethanol (REN) for industrial and food grades, Anhydrous Ethanol for fuel grade, and Extra Neutral Alcohol (ENA) for pharmaceutical and perfume grades. The combined capacity of our distilleries is 350,000 litres per day.

#### Textile Business:

This cotton spinning unit produces carded cotton and PC yarn ranging from 10/s to 33/s. The installed capacity is 24,960 spindles for cotton spinning.

#### Farming & Allied Business:

This comprises different parcels of land mainly located in Jhang District near OUR manufacturing facilities. Total area for cultivation is 790 acres which is our owned land. The main crops include sugarcane. wheat, gram, maize, fodder and seasonal vegetables. A dairy farm located at Jhang has been developed, with a herd of around 200 milking and fattening cattle. Shakarganj has also launched a new product in the area of non-chemicals fertilizers under the brand name of "Shakarganj Tiger Compost". The product as organic fertilizer has been developed using aerobic decomposition process with addition of standardised microbial culture in filter cake. The compost is a rich source of organic matter, with macro and micro nutrients to help improve soil and it is very useful for better growth, yield and quality of all field crops in general and specifically for sugarcane. This is at its initial stage and would grow up in the farmer's community with the practical exposures.

#### Business Vision and Strategy:

Shakarganj's vision is to create the country's leading renewable ingredients business. We aim to achieve this by building a consistent portfolio of distinctive, profitable, high-value solutions in products and services for our customers. Shakarganj is committed to long-term for providina value our shareholders. Our strategy is to build a stronger value added business with a low-cost commodity base. We focus on five key business objectives to deliver consistent growth.

#### - Serve our Customers:

Delivering excellent customer service is at the core of everything we do. Our aim is to be the partner of choice in our customers' processes and to help them develop more successful consumer products.

#### - Operate Efficiently and Safely:

We aim to be the lowest-cost and most efficient producer in all our markets. Through our expertise in high-volume process management, our focus is on technical and manufacturing excellence and the efficient use of services such as logistics and utilities. We are continually working to improve operational efficiency and strive to ensure safe and healthy conditions for everyone at our sites.

#### - Invest in Long Term Assets and Partnerships:

We continually evaluate investment opportunities that would add strategic value by enabling us to enter new markets or add products, technologies and knowledge more efficiently than we could originally. We also aim to grow our business by forming joint ventures and partnerships to enhance the capabilities of our existing product portfolio. Using alliances and joint ventures can be an efficient way to lower our cost of investing in new areas and markets, and will help secure access to new and complementary technology and expertise.

#### - Invest in Technology and People:

We are investing in our research and development capabilities to help us in developing innovative solutions that meet our customers' product challenges. We are also complementing our own capabilities through business and technology partnerships, and university collaborations. To develop talent, improve leadership and help our employees succeed, we operate various Programmes designed to ensure the right skills at all levels to grow our business.

### - Grow the Contribution from Value Added Products:

We are committed to grow the contribution from our value added products. Value added products utilise technology and intellectual property enabling us to obtain a price premium along with sustainable and/or higher margins.

# shakarganj

FOOD PRODUCTS LIMITED (subsidiary of Shakarganj Limited)

SFPL comprises of three divisions – Dairy, Juice and Pulp & Concentrates. The Dairy and Juice division uses Tetra Pak packages to deliver UHT dairy and beverage products to the local market. The Pulp & Concentrate division produces fruit pulps, concentrates and purees for sale in both the Pakistan and International market. Our aim is to supply premium quality food products to our customers and become one of the leading food companies in Pakistan.

#### **DAIRY & JUICE DIVISION**

Shakarganj entered into the dairy business in 2006 with the introduction of its brand "good milk". Since then it has expanded with a diverse product portfolio in both the dairy and beverage category including UHT white milk, flavoured milk as well as a wide range of juices and nectars. The company has been able to leverage the Shakarganj name in the farming community to establish its milk collection network thereby developing a strong, sustainable and shared value based supply chain for the business function. The company sells its products throughout the country via a nationwide distribution network.

#### **DAIRY & JUICE PLANT**

- Processing and packaging plant located at Jaranwala.
- Machinery from internationally renowned companies such as Tetra Pak.
- Well-equipped, state of the art of laboratory and testing facility at the plant run by a team of technically skilled and experienced staff.
- Research facility for new product development.
- International and domestic quality certifications: HACCP, PSQCA, PFA and HILAL

#### MILK PROCUREMENT NETWORK

• Well established network of milk collection centers at prime locations in Pakistan.

- Collection centres run by highly skilled and experienced staff members.
- Quality procurement ensured by wellequipped laboratory and advanced testing facility.
- Advisory services provided by technical team to facilitate higher yield and enhanced milk quality to support the farming community

#### PULP & CONCENTRATE DIVISION

Shakarganj has significant capabilities regarding the production of fruit pulps and purees. It is one of the leading manufacturers in Pakistan and has a significant volume of exports to Europe, the Middle East, Africa and Far East. Our manufacturing and processing facility is located in the heart of the agricultural and fruit producing region of Pakistan; giving our customers an advantage in terms of product freshness, continuity of fruit supply and reduced 'time to market'.

- Plant is located at Chiniot.
- Two processing lines for production of juice concentrates, puree and pulps.
- Product storage facilities consist of both, a refrigerated and frozen setup.
- Technically skilled and experienced manpower.
- Well-equipped laboratory and testing facilities ensure effective quality assurance according to international standards.
- International quality certifications: Food Safety System Certification 22000

### **DIRECTORS' REPORT**

The directors of your company are pleased to present the condensed interim financial statements of the Company and the Group for the half year ended 31 March 2022.

#### Financial and Operational Performance:

Shakarganj performed well at sugar front and achieved highest sugarcane crushing as compared to its last five season's crushing figures at half year end. Despite, late start of crushing campaign by 5 days as to previous season, Shakarganj enabled to increase its crushing significantly and during the period under review Company was able to crush 1,288,891 MT of sugarcane as compared to 1,006,075 MT of sugarcane in the corresponding period. There was more than 28% increase in crushing as compared to last season.

Notified support price of sugarcane was Rs. 225 per 40 kg in Punjab, however, sugarcane was procured at considerably higher price resulting tough competition among the mills during the period under review. Growers were not willing to sell sugarcane at the rate fixed by the provincial government and middleman was freely dealing in sugarcane and in order to secure high prices, created shortage of sugarcane and non-availability of sugarcane kept sugarcane prices on the rise resulting cost escalated. Government should take measures to eliminate the involvement of the middleman in the sugarcane supply chain. Sugarcane prices in the market at the peak of the season were increased and as a result average sugarcane cost for Shakarganj increased to Rs. 255 per 40 kg as compared to Rs. 251 per 40 kg in the corresponding period.

Cultivated area of sugarcane crop for the season under review was expected to be higher as reported by the growers. However, unpredictable and inconsistent policies and actions of the Government impacted negatively on all the stakeholders in sugar industry. The Government should have engaged the sugar industry to find the solution of the problems but it is unfortunate that instead of engaging stakeholders throughout the sugar supply chain, the Government engaged coercive measures against the sugar mills. Under Federal Board of Revenue directions, field formations opened the assessment cases in both income tax and sales tax areas in bulk, however, honorable Lahore High Court recently declared such selections illegal. This would help to decrease unnecessary litigation at large scale.

During the period under review FBR also took a positive step to curb sales tax evasion and control on undocumented sugar trade. These issues were the main root causes of instability in the prices of sugar and sugarcane as well. To resolve the issues, FBR issued Sales Tax General Order No. 05 of 2021-22 with subject of Implementation of Track & Trace System during the start of crushing season and as per this STGO, no sugar bag shall be removed from sugar factory without affixation of tax stamps also called unique identification marking (UTM) provided by the vendor nominated by FBR. The innovative digital monitoring system of sugar production has been implemented in over 79 sugar mills, having 151 production lines nationwide. Owing to this expectedly transparent electronic monitoring of production, FBR registered a growth of more than 30% during the season under review so far.

Our distilleries operations also started late at Shakarganj, however, with better crushing and availability of its own molasses, production was almost double as compared to the corresponding period. Procurement of molasses was made but not on the large scale basis due to financial constraints. Prices of raw material in core areas of sugar and biofuel have constantly increased, reducing margins.

Inspite of financial challenges being faced by the Company, the management of the Company performed well during the second quarter as the Company earned Rs. 604.47 million gross profits as compared to gross loss of Rs 151.81 million during corresponding period of last year. Profit from operations remained at Rs 457.70 million and net profit after tax was Rs 344.38 million for the second quarter. However, for the six

months period, there was gross profit of Rs. 338.33 million as compared to gross loss of Rs. 284.32 million during last year same period. Profit from operations was Rs. 130.80 million compared to loss from operations of Rs. 614.20 million. Company earned profit before tax of Rs. 31.15 however there was after tax loss of Rs. 38.88 million as compared to after tax loss of Rs. 798.80 million in the corresponding period of last year. The Company accounted for its share of profit in equity accounted investment in Shakarganj Food Products Limited amounting to Rs. 15.50 million as compared to Rs. 19.85 million in the corresponding period.

The Company remains committed to its best efforts to achieve better performance and to improve its liquidity scenario. Various steps were being taken to overcome the liquidity crunch as details given in Note 1.2 to the condensed interim financial statements attached herewith as all out efforts were being made to improve the production and profitability of the Company through efficiency and effectiveness, reducing production cost. The management considers that the measures explained would result in availability of adequate financial resources for the Company to sustain the continuity of its business for the foreseeable future and thus maintain its going concern status.

#### **Business Segments:**

#### Sugar Division:

Sugar Division revenue net of tax for the first half of Fiscal 2022 was Rs. 8,512 million and inter-segment sale of this division was Rs. 928 million as against net sales revenue of Rs. 6,416 million and inter-segment sale of Rs. 485 million during corresponding period of last year. The Sugar Division crushed 1,288,891 MT (HYFY21: 1,006,075 MT) of sugarcane to produce 119,308 MT (HYFY21: 91,837 MT) of sugar at an average recovery rate of 9.40 percent (HYFY21: 9.13 percent). Increased crushing and better sugar recovery was achieved with the day and night efforts of the management.

Due to better planning and procurement of sugarcane, the production and sales were significantly increased as to corresponding period of last year. There was significant increase in gross profit margin as well which remained 3.86% during the current period compared to gross loss of 3.75% during the corresponding period of last year. With the maximum crushing and increase in sugar recovery, the bottom-line resulted in profit before tax of Rs. 179.3 million as compared to loss before tax of Rs. 448.4 million for the corresponding period last year.

#### **Biofuel Division:**

Net sales revenue of Biofuel Division during the period amounted to Rs. 460.6 million with inter segment sale of Rs. 22.6 million as compared to net sales revenue of Rs. 320.8 million with inter segment sale of Rs. 2.4 million during the corresponding period. Inspite of comparatively increased production as well as improved selling prices still the gross margins could not be improved and there was gross profit for the period at Rs. 7.30 million as compared to gross loss of Rs. 16.1 million in corresponding period last year. The bottom-line resulted in loss before tax of Rs. 35.27 million as compared to 10.02 million litres (HYFY21: 5.62 million litres). Biofuel operations were started late, however, the Company started its exports and the management would try to mitigate the situation and to continue its export for better results.

#### Textile Division:

Textile Division operations were stopped due to continuous losses due to which there was sales revenue of Rs. 34.2 million whereas sales revenues in the corresponding period stood at Rs. 610.8 million. Due to un-proportionate gap in raw material cost and selling prices the operations were abandoned. Due to

closure of operations, there was no production during the period (HYFY21: 1.86 million kg). Gross loss for the period stood at Rs. 28.2 million. Textile Division gross loss margin was 82.33% during the current period as compared to gross loss margin of 3.27% during corresponding period. The factors behind increase in loss and closure of operations was significant increase in per unit cost of electricity. The bottom-line resulted in loss before tax of Rs. 48.56 million as compared to loss before tax of Rs. 39.52 million for the corresponding period last year.

#### **Unconsolidated Financial Position**

Balance sheet footing stood at Rs. 21,095.16 million as of 31 March 2022 compared to Rs 19,135.86 million on 30 September 2021. Total shareholders' fund decreased to Rs. 11,177.18 million from Rs. 11,220.9 million as at 30 September 2021. Break-up value per share was Rs. 89.42.

#### **Consolidated Financial Performance**

On a consolidated basis, operating profit before finance costs and taxation amounted to Rs. 386.39 million (HYFY21: loss Rs. 335.07 million). Consolidated loss after tax for the Group for the period was Rs. 20.43 million as compared to loss after tax of Rs. 780.76 million in HYFY21. During period under review, profit after tax of Shakarganj Food Products Limited – the subsidiary company was amounted to Rs. 29.57 million (HYFY21: profit after tax Rs. 37.89 million). Profit of subsidiary company was decrease slightly due to decrease in sales volume and increase in input.

On a Group basis, the consolidated balance sheet footing stood at Rs. 28,329.45 million, compared to Rs. 27,669.63 million as at 30 September 2021. Total equity decreased to Rs. 12,653.50 million from Rs. 12,680.97 million as at 31 March 2022.

#### Health, Safety, Environment and Corporate Social Responsibility

To safeguard the interest of all stakeholders during the recent waves, and now the emerging variant of COVID-19, Omicron, the Company continues to take appropriate measures, including strict implementation of protocols on health and employee safety. These measures have so far permitted continuity of the operations of the Company. We would also like to take this opportunity to appreciate the various relief measures initiated by the government and the State Bank of Pakistan to support the business community to mitigate the adverse impact of COVID-19.

To ensure a safe and healthy work environment, the Company is adapting its health and safety practices in line with the development of the COVID-19 pandemic. Measures include categorization of staff essential to be present in office for uninterrupted operations, whereas the other staff is shifted to work-from-home at the time of needs. COVID vaccination is also recommended to all workers and staff on priority basis. Technological developments have made the minimal physical interaction possible by conversion to virtual meetings. All efforts are being made to mitigate the situation encountered by pandemic. We also actively seek opportunities to contribute to the communities in which we operate and to improve the environments that sustain us all. Our areas of primary focus are education, health and safety, energy conservation, waste reduction, and community building.

#### Future Outlook:

As the area under cultivation increased, management see further increase in the crushing as well as sugar production. Growers are expecting prices more than minimum support price of sugarcane and holding on crop in the field by slowing down the harvesting of sugarcane to catch up maximum price as happened in previous season. Keeping in view the available margins, the management would try to capture late comers and maximize its crushing and productions. On the other hand, government fixed

sugar price however, we expect that all the stakeholders will keep the cost of sugarcane in line with sugar selling prices. We take this opportunity to urge the government to take the necessary steps so that the price of sugar adequately reflects the cost of sugarcane to create a more conducive business environment for the industry, and to develop policies to promote yield and sucrose recovery.

Future outlook of our distilleries operations is always depending on continuous availability of good quality molasses. Operations at Biofuel Division are expected to continue with limited availability of molasses from own Sugar Division. Difficult business environments in the textile business as in view of liquidity crunch and high cost of raw material, the operations could not be started yet. As mentioned in our last annual report, management is taking steps to overcome the liquidity crunch and we are hopeful that the Company will be back in profitable state as operational results dictate so far. Inspite of all the challenges, we remain committed to navigating through these tough times.

Finally, we would like to thank all stakeholders for their patronage and look forward to their continued support.

For and behalf of Board of Directors

### **Independent Auditor's Review Report**

#### To the members of Shakarganj Limited Report on review of Unconsolidated Condensed Interim Financial Statements

#### Introduction

We have reviewed the accompanying unconsolidated condensed interim statement of financial position of SHAKARGANJ LIMITED as at 31 March 2022 and the related unconsolidated condensed interim statement of profit or loss, unconsolidated condensed interim statement of comprehensive income, unconsolidated condensed interim statement of changes in equity, and unconsolidated condensed interim statement of cash flows, and notes to the unconsolidated condensed interim financial statements for the half year then ended (here-in-after referred to as "unconsolidated condensed interim financial statements"). Management is responsible for the preparation and presentation of these unconsolidated condensed interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these unconsolidated condensed interim statement of profit or loss and unconsolidated condensed interim statement of profit or loss and unconsolidated condensed interim statement of comprehensive income for the quarters ended 31 March 2022 and 31 March 2021 have not been reviewed and we do not express a conclusion on them as we are required to review only the cumulative figures for the half year ended 31 March 2022.

#### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of unconsolidated condensed interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unconsolidated condensed interim financial statements are not prepared, in all material respects, in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting.

#### **Emphasis of Matter**

We draw attention to Note 1.2 to the unconsolidated condensed interim financial statements which states that the Company has suffered loss after taxation of Rupees 38.884 million during the current period and has accumulated losses of Rupees 3,266.116 million as at the reporting date the current liabilities of the Company exceeded its current assets by Rupees 3,255.134 million. These conditions along with other matters as stated in Note 1.2 to the unconsolidated condensed interim financial statements indicate the existence of material uncertainty which may cast significant doubt on the Company's ability to continue as a going concern. Our report is not qualified in respect of this matter.

The engagement partner on the review resulting in this independent auditor's review report is Liaqat Ali Panwar.

Alifaleen Director

### SELECTED NOTES TO THE UNCONSOLIDATED CONDENSED INTERIM FINANCIAL STATEMENTS

For the Half Year Ended 31 March 2022 (Un-Audited)

#### 1. The Company and its Operations

1.1. Shakarganj Limited (the Company) is a public limited company incorporated on 20 September 1967 in Pakistan under the Companies Act, 1913 (Now Companies Act, 2017) and is listed on Pakistan Stock Exchange Limited. It is principally engaged in manufacture, purchase and sale of sugar, biofuel and yarn. The Company has its principal manufacturing facilities at Jhang and satellite manufacturing facilities at Bhone. The registered office of the Company is situated at E-Floor, IT tower, 73-E/1, Hali Road, Gulberg-III, Lahore.

#### 1.2. Going concern assumption

The Company has suffered loss after taxation of Rs. 38.884 million and its accumulated losses are of Rs. 3,266.116 million as at 31 March 2022. The current liabilities of the Company exceeded its current assets by Rs. 3,255.134 million. Moreover, the Company has some overdue installments of long-term financing, short-term borrowings and overdue statutory obligations. Furthermore Textile segment of the Company remained closed during the whole period. Certain shareholders of the Company have applied to Sindh High Court, Karachi and Lahore High Court, Lahore and obtained stay on 29 November 2021 and 25 February 2022 respectively from the respective courts regarding the approval of disposal of certain agricultural land of the Company. These factors indicate the existence of material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern and, therefore, that it may be unable to realize its assets and discharge its liabilities in the normal course of business. However, these unconsolidated condensed interim financial statements have been prepared on going concern basis due to following reasons:

- The Company is making arrangements to sell its agriculture land having market value of Rs. 755.547 million. For this purpose, approval of shareholders has been obtained in Annual General Meeting of the Company held on 28 February 2022 subject to further orders of Lahore High Court, Lahore and Sindh High Court, Karachi along with no objection from lenders. The proceeds through disposal of land will be utilized by the Company to pay to sugarcane growers and to settle the other liabilities of the Company while the remaining proceeds will be utilized for upgradation of plant and machinery of textile and sugar divisions at Jhang.

- The management of the Company has firmed up a turnaround plan based on disposal of the Bhone Unit of the Company which includes Sugar and Biofuel divisions. Book value of freehold land, building and plant and machinery as at 31 March 2022 is Rs. 8.442 billion. Price discovery by the management for the whole Bhone Unit of the Company including related licenses / rights when built in the future plan results in debt free business, surplus funds and profits for the Company. The management has planned to seek required approvals for roll out of the turnaround plan before the end of financial year 30 September 2022.

- One of the largest shareholders of the Company has affirmed its commitment to fully financially support the Company, in case of any need.

- The Company undertook significant operational measures during the period to improve its productivity. During the period, the Company has crushed 1 288 891 MT of sugarcane which has increased by more than 28% as compared to 1 006 075 MT of sugarcane crushed in the corresponding period and produced 119 308 MT of sugar in current season which has increased by almost 30% as compared to 91 837 MT of sugar in the corresponding year. Moreover the Company produced 10 017 287 liters of biofuel during the period which has been increased by more than 78% as compared to 5 624 260 liters in the corresponding period. This will favorably affect the financial position and performance of the Company in the next six months.

- The Company is in the process of installing the falling film evaporators. Falling film evaporators are alternative to Robert type evaporators and help to improve the optimization of the evaporator's station and energy efficiency of the plant. The percentage of steam's usage will be reduced by 9%. It would also increase the recovery ratio accordingly.

- The Company remains committed to its best efforts to improve liquidity portion. The financial projections of the Company show improvements in cash generation and profits.

The management considers that the measures as explained above would result in availability of adequate financial resources for the Company to sustain the continuity of its business for the foreseeable future and thus maintain its going concern status. Accordingly, these unconsolidated condensed interim financial statements have been prepared on a going concern basis which assumes that the Company will continue to operate its business, realize its assets, and discharge its liabilities, in the normal course of business.

#### 2. Summary of Significant Accounting Policies

2.1. Basis of preparation

#### a) Statement of compliance

i). These unconsolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34 'Interim Financial Reporting', issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and

- Provisions of and directives issued under the Companies Act, 2017.

- Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

ii). These unconsolidated condensed interim financial statements do not include all the information and disclosures required in annual financial statements and should be read in conjunction with the annual audited financial statements of the Company for the year ended 30 September 2021. These unconsolidated condensed interim financial statements are un-audited, however, have been subjected to limited scope review by the auditors and are being submitted to the shareholders as required by the Listed Companies (Code of Corporate Governance) Regulations, 2019 and section 237 of the Companies Act, 2017.

#### b) Accounting policies and computation methods

The accounting policies and methods of computation adopted in the preparation of these unconsolidated condensed interim financial statements are the same as those applied in the preparation of the annual financial statements of the Company for the year ended 30 September 2021.

#### 2.2. Critical accounting estimates, judgments and financial risk management

The preparation of these unconsolidated condensed interim financial statements in conformity with the approved accounting standards as applicable in Pakistan requires management to use certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Company's accounting policies and reported amounts of assets, liabilities, income and expenses. Estimates, assumptions and judgments are continually evaluated and are based on historical experience and other factors, including reasonable expectations of future events. Provision of accounting estimates are recognized commencing from the period of revision.

During preparation of these unconsolidated condensed interim financial statements, the significant judgments made by the management in applying the Company's accounting policies and the key sources of estimation and uncertainty were the same as those that applied in the annual financial statements of the Company for the year ended 30 September 2021.

The Company's financial risk management objectives and policies are consistent with those disclosed in the preceding annual financial statements of the Company for the year ended 30 September 2021.

#### 2.3. Seasonality of operations

The Company is, interalia, engaged in manufacturing of sugar for which the season begins in November and ends in April. Therefore, majority of expenses are incurred and production activities are undertaken in first half of the Company's financial year thus increasing volume of inventories at the end of the first half.

| Askari Bank Limited                 | Bank balances                           |
| BankIslami Pakistan Limited         | Bank balances and short term borrowings |
| Bank Alfalah Limited                | Bank balances                           |
| Dubai Islamic Bank Pakistan Limited | Bank balances                           |
| Meezan Bank Limited                 | Bank balances                           |

**12.1.** There was no profit on deposits with shariah compliant banks and no gain or dividend earned on shariah compliant investments.

#### 13. Recognized Fair Value Measurements - Financial Instruments

#### Fair value hierarchy

Judgments and estimates are made in determining the fair values of the financial instruments that are recognized and measured at fair value in these unconsolidated condensed interim financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into following three levels. An explanation of each level follows underneath the table:

|   | Level 1 | Level 2   | Level 3   | Total |
|---|---------|-----------|-----------|-------|
|   |         | (Rupees i | n thousan | d)    |
| Financial assets - recurring fair value measurement |         |           |           |       |
| At 31 March 2022 - (Un-audited)                     |         |           |           |       |
| At fair value through other comprehensive income    | 7,646   |           | -         | 7,646 |

| At 30 | September | r 2021 - Audited |  |
|-------|-----------|------------------|--|
|-------|-----------|------------------|--|

Level 1 Level 2 Level 3 Total

At fair value through other comprehensive income

10,100 - - 10,100

The above table does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amounts are a reasonable approximation of fair value. Due to the short term nature, carrying amounts of certain financial assets and financial liabilities are considered to be the same as their fair value. For the majority of the non-current receivables, the fair values are also not significantly different to their carrying amounts.

There were no transfers between levels 1 and 2 for recurring fair value measurements during the period. Further there was no transfer out of level 3 measurements.

The Company's policy is to recognize transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

#### 14. Date of Authorization of Issue

These unconsolidated condensed interim financial statements were approved and authorized for issue on 30 May 2022 by the Board of Directors of the Company.

#### 15. Corresponding Figures

In order to comply with the requirements of IAS 34, the unconsolidated condensed interim statement of financial position and unconsolidated condensed interim statement of changes in equity have been compared with the balances of annual audited financial statements of preceding financial year, whereas, the unconsolidated condensed interim statement of profit or loss, unconsolidated condensed interim statement of comprehensive income and unconsolidated condensed interim statement of cash flows have been compared with the balances of comparable period of immediately preceding financial year.

Corresponding figures have been re-arranged, wherever necessary, for the purpose of comparison. However, no significant re-arrangements have been made.

#### 16. General

Figures have been rounded off to the nearest thousand of Rupees unless otherwise stated.

# SELECTED NOTES TO THE CONSOLIDATED CONDENSED INTERIM FINANCIAL STATEMENTS

For the Half Year Ended 31 March 2022 (Un-Audited)

#### 1. The Group and its Operations

The Group consists of Shakarganj Limited (the Holding Company) and its Subsidiary Company, Shakarganj Food Products Limited. Brief profiles of the Holding Company and its Subsidiary Company are as follows:

#### Shakarganj Limited

Shakarganj Limited (the Holding company SL) is a public limited company incorporated on 20 September 1967 in Pakistan under the Companies Act, 1913 (Now Companies Act, 2017) and is listed on Pakistan Stock Exchange Limited. It is principally engaged in manufacture, purchase and sale of sugar, biofuel and yarn. SL has its principal manufacturing facilities at Jhang and satellite manufacturing facilities at Bhone. The registered office of SL is situated at E-Floor, IT Tower, 73-E/1, Hali Road, Gulberg-III, Lahore

The Holding Company has suffered loss after taxation of Rs. 38.884 million and its accumulated losses are of Rs. 3,266.116 million as at 31 March 2022. The current liabilities of the Holding Company exceeded its current assets by Rs. 3,255.134 million. Moreover, the Holding Company has some overdue installments of long-term financing, short-term borrowings and overdue statutory obligations. Furthermore Textile segment of the Holding Company have applied to Sindh High Court, Karachi and Lahore High Court, Lahore and obtained stay on 29 November 2021 and 25 February 2022 respectively from the respective courts regarding the approval of disposal of certain agricultural land of the Holding Company. These factors indicate the existence of material uncertainty which may cast significant doubt about the Holding Company's ability to continue as a going concern and, therefore, that it may be unable to realize its assets and discharge its liabilities in the normal course of business. However, these consolidated condensed interim financial statements have been prepared on going concern basis due to following reasons:

- The Holding Company is making arrangements to sell its agriculture land having market value of Rs. 755.547 million. For this purpose, approval of shareholders has been obtained in Annual General Meeting of the Holding Company held on 28 February 2022 subject to further orders of Lahore High Court, Lahore and Sindh High Court, Karachi along with no objection from lenders. The proceeds through disposal of land will be utilized by the Holding Company to pay to sugarcane growers and to settle the other liabilities of the Company while the remaining proceeds will be utilized for upgradation of plant and machinery of textile and sugar divisions at Jhang.

- The management of the Holding Company has firmed up a turnaround plan based on disposal of the Bhone Unit of the Company which includes Sugar and Biofuel divisions. Book value of freehold land, building and plant and machinery as at 31 March 2022 is Rs. 8.442 billion. Price discovery by the management for the whole Bhone Unit of the Company including related licenses / rights when built in the future plan results in debt free business, surplus funds and profits for the Company. The management has planned to seek required approvals for roll out of the turnaround plan before the end of financial year 30 September 2022.

- One of the largest shareholders of the Holding Company has affirmed its commitment to fully financially support the Holding Company, in case of any need.

- The Holding Company undertook significant operational measures during the period to improve its productivity. During the period, the Holding Company has crushed 1 288 891 MT of sugarcane which has increased by more than 28% as compared to 1 006 075 MT of sugarcane

crushed in the corresponding period and produced 119 308 MT of sugar in current season which has increased by almost 30% as compared to 91 837 MT of sugar in the corresponding year. Moreover the Holding Company produced 10 017 287 liters of biofuel during the period which has been increased by more than 78% as compared to 5 624 260 liters in the corresponding period. This will favorably affect the financial position and performance of the Holding Company in the next six months.

- The Holding Company is in the process of installing the falling film evaporators. Falling film evaporators are alternative to Robert type evaporators and help to improve the optimization of the evaporator's station and energy efficiency of the plant. The percentage of steam's usage will be reduced by 9%. It would also increase the recovery ratio accordingly.

- The Holding Company remains committed to its best efforts to improve liquidity portion. The financial projections of The Holding Company show improvements in cash generation and profits.

- The management considers that the measures as explained above would result in availability of adequate financial resources for the Holding Company to sustain the continuity of its business for the foreseeable future and thus maintain its going concern status. Accordingly, the financial statements of the Holding Company have been prepared on a going concern basis which assumes that the Holding Company will continue to operate its business, realize its assets, and discharge its liabilities, in the normal course of business.

#### Shakarganj Food Products Limited

Shakarganj Food Products Limited (SFPL) was incorporated in Pakistan initially as a private limited company on 03 April 2001 under the Companies Ordinance, 1984 (Now Companies Act, 2017). Its name was later changed from A.M. Fruit Products (Private) Limited to Shakarganj Food Products Limited along with change of its status from private limited to public limited on 03 January 2006. The principal activity of the SFPL is manufacturing, processing and sale of food products (dairy, fruit pulps and concentrate juices). The registered office of SFPL is situated at E-Floor, IT Tower, 73-E/1, Hali Road, Gulberg-III, Lahore.

SL held 52.39% shares of SFPL as at 31 March 2022 (30 September 2021: 52.39%)

#### 2. Summary of Significant Accounting Policies

#### 2.1. Basis of preparation

#### a) Statement of compliance

- i). These consolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:
  - International Accounting Standard (IAS) 34 'Interim Financial Reporting', issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
  - Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

ii). These consolidated condensed interim financial statements do not include all the information and disclosures required in annual financial statements and should be read in conjunction with the annual audited financial statements of the Group for the year ended 30 September 2021. These consolidated condensed interim financial statements are un-audited and are being submitted to the shareholders as required by the Listed Companies (Code of Corporate Governance) Regulations, 2019 and section 237 of the Companies Act, 2017.

#### b) Accounting policies and computation methods

The accounting policies and methods of computation adopted in the preparation of these consolidated financial statements are the same as approved in the preparation of the audited annual financial statements of the Group for the year ended 30 September 2021.

#### 2.2. Critical accounting estimates, judgments and financial risk management

The preparation of these consolidated condensed interim financial statements in conformity with the approved accounting standards requires the use of certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Group's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

During preparation of these consolidated condensed interim financial statements, the significant judgments made by the management in applying the Group's accounting policies and the key sources of estimation and uncertainty were the same as those that applied in the preceding audited annual financial statements of the Group for the year ended 30 September 2021.

The Group's financial risk management objectives and policies are consistent with those disclosed in the preceding annual audited financial statements of the Group for the year ended 30 September 2021.

#### 2.3. Seasonality of operations

The Holding Company is, interalia, engaged in manufacturing of sugar for which the season begins in November and ends in April. Therefore, majority of expenses are incurred and production activities are undertaken in first half of the Holding Company's financial year thus increasing volume of inventories at the end of the first half.
